TACKLING THE TARIFF.

Effect of Protection on Agriculture To be investigated.

Washington, Feb. 16.—The house of representatives has decided that the first investigations into the oper ations of the McKinley bill shall be conducted by the committee on ag riculture. This arrangement has the formal sanction of the democrats of the ways and means committee, as the inquiry of Chairman Hatch and his committee is to be directed particularly to the effect that the high tariff has had upon the agricultural interests of the country.

It is understood that later the committee on manufacturers will be authorized to conduct an inquiry as to the effect of the tariff law on the manufacturers and skilled wage workers, and thus in the end reports will be made on the various phases of the new law by as many different com mittees.

Mr. Hatch, who had been pressing the agricultural investigation resolution, says he regarded its adoption its effect. He thinks that an investigation will show that the law has interests and that the committee on Opera with voice unimpaired. obtaining voluntary witnesses to testify to the existing facts.

Affected by Religion.

Atchison, Kan., Feb. 16.-Eight years ago Robert F. Rose of Iatan brought suit against the city for damages on account of injuries received by falling into a hole in a defective sidewalk. The doctors were unanimous in their opinion that he had received permanent injuries, and the jury awarded him \$5,000. This was reduced by the judge to \$2,500. An appeal was taken to the supreme court and the decision of lower court was affirmed. The city was finally compelled to levy a special tax to pay the judgment, and \$1,000 was recently collected by Rose's attorneys who gave him notice.

Upon receiving this notice yesterday Rose came to Atchison and surrendered to the sheriff, asserting that he was a perjurer and should be punished. He declared that he deliberately planned the accident, that he received no injuries and that he swore to many falsehoods in order to win a verdict. He said that he had recently experienced religion and that he wanted to square himself with God.

The general impression here is that Rose is insane. Attorney Bland has the case under advisement and declares that Rose must go to either an insane asylum or the penitentiary. As it is the city is out its money and the question is how to get it back.

The Nation's Census.

A bill to establish a permanent census bureau has been introduced by Senator Hale, of Maine.

Census officials acknowledge the inability of any hastily equipped census to compass in a short time the immense variety of inquries in social, economic, religious, educational, scientific and many other features of population, wealth, oc. at H. L. Tucker's drugstore.

Satan's New Work

San Antonio, Tex., Feb. 17.—Bisl. op Ueraz of this Catholic diocese and other prominent citizens have lately been the recipients of letters written for the purpose of extorting money from them under pain of death. These letters bear the signature of "Satan" and purported to come from a secret society similar to the Mafia. They requested that certain sums be left at particular places, and threatened death in the event of failure to comply with the demands or reporting the matter to the police.
